Help

knexfile.js

```
1 module.exports = {
2   development: {
3     client: 'sqlite3',
4     connection: {
5       filename: './dev.sqlite3'
6     }
7   },
8   staging: {
9     client: 'postgresql',
10    connection: {
11      database: 'my_db',
12      user: 'username',
13      password: 'password'
14    },
15    pool: {
16      min: 2,
17      max: 10
18    },
19    migrations: {
20      tableName: 'knex_migrations'
21    }
22  }
23 };
```
